Lean Automation

Isolated RPA or process improvement efforts deliver sub-optimal results. bizXL Solutions helps organizations design and implement Lean Automation by bringing multiple capabilities together to unleash full potential of end-to-end operations.

Scientific Process Design	Intelligent Data Processing (IDP)	Robotic Process Automation (RPA)	Business Intelligence (BI)
<p>Diagnostic assessment uncovers hidden waste and helps design an effective and efficient process.</p>	<p>TruCap+ (Intelligent Capturing), proprietary OCR engine with integrated AI & fuzzy logic. Captures meaningful data from unstructured documents with over 99% accuracy.</p>	<p>Uses the data and the business rules to execute process steps and highlights exceptions for analysts to verify.</p>	<p>Visualize business intelligence in live dashboards. Have key performance indicators reported for performance management and decision making.</p>
<p>Lean Six Sigma, Design Thinking</p>	<p>TruCap+</p>	<p>TruAI + TruBot</p>	<p>TruBI</p>
	 <p>Advanced pre-processing</p>  <p>Intelligent OCR for data capture</p>  <p>Advanced pre-processing</p>	 <p>Verification Indexing Archiving</p> <p>AI/ ML Models</p>  <p>Storage</p> 	

Reclaim Loss Due to Hidden Waste and Fast-Track Your Automation Journey with Lean Automation.

An integrated approach leveraging multiple capabilities can significantly improve the speed and effectiveness of the automation journey.

BIZXL SOLUTIONS

About bizXL

bizXL Solutions is a management consulting firm focused on improving operational efficiency. We utilize our proprietary methodologies to help clients reduce cost & maximize profitability. We partner with organizations to conduct end-to-end diagnostic assessments using deep process and data analytics, provide recommendations and support implementation to achieve measurable impact. bizXL has partnered with a leading technology service provider to bring about digital solutions for our clients. We create sustainable competitive advantages for our clients through customized solutions. Our approach is industry agnostic, and our goal is to improve the business effectiveness of small, medium and large-scale enterprises.
